ABOUT COMPANY

Our state-of-the-art manufacturing facilities by our manufacturing partners are accredited with WHO-GMP and ISO 9001:2015 certifications, ensuring operational excellence at every step of the production process.

As a globally recognized pharmaceutical manufacturer and distributor, we serve pharmaceutical distributors and importers, hospitals, pharmacies, clinics, doctors, and patients across more than 80 countries. With a comprehensive portfolio of over 500 speciality products, Toro Pharmaceutical is committed to delivering “Quality Healthcare Beyond Boundaries”. At Toro Pharmaceuticals, our core values - Quality, integrity and innovation guide us in our mission to improve the “Quality of Human Lives” and contribute to a healthier world.

CEO STATEMENT

At Toro Pharmaceuticals, we are driven by a single purpose to improve global healthcare through innovative, high-quality pharmaceutical solutions. Our commitment to excellence is reflected in every step of our journey from research and development to the global standards of our manufacturing processes. We strive to meet the evolving needs of patients worldwide, ensuring that each product we deliver upholds the highest standards of safety, efficacy, and reliability. As we continue to grow, we remain focussed on our core values of integrity, innovation, and sustainability. By embracing technology and continuous improvement, we aim to create a healthier world, one solution at a time.

Thank you for trusting Toro Pharmaceuticals as your partner in health.

“At the heart of everything we do is an unwavering obsession with patient safety, ensuring that every product we deliver meets the highest standards of care and trust”

COMPANY HISTORY

Toro Pharmaceuticals began as a pharmaceutical wholesaler with a vision to make high-quality generic, specialty and shortage pharmaceutical formulations accessible to patients worldwide at economical prices. From a humble beginning in India with a team of 2 people, we have evolved into a globally recognized pharmaceutical company run by a group of passionate professionals, delivering a diverse portfolio of life-saving medicines to over 80 countries.

Throughout our journey, we have built a reputation for excellence by embracing innovation, upholding stringent quality standards and fostering strong partnerships across the healthcare ecosystem. This commitment has positioned Toro Pharmaceuticals as a trusted manufacturing partner in the pharmaceutical industry.

MISSION”

Our mission is to address global healthcare needs by delivering economical pharmaceutical formulations that prioritize patient safety and meet the highest standards of quality and compliance. By leveraging cutting-edge manufacturing technologies, a global network of distribution partners, healthcare organizations and strong alliances with governing bodies, we empower patients, healthcare providers, distributors, and caregivers with reliable solutions and timely delivery.

Improving “Quality of Human Lives” is our mission where access to life-saving medicines is not a privilege but a fulfilled promise

VISION”

To be a globally recognized leader in the pharmaceutical industry, committed to revolutionizing healthcare and improving the “Quality of Human Lives” by providing high-quality, innovative drug formulations at economical prices. Our vision is to enhance well-being and life expectancy, ensuring seamless access to life saving medicines for patients worldwide.

OUR MANUFACTURING FACILITIES

WHO-GMP Manufacturing Facilities

Our state-of-the-art manufacturing facilities by our manufacturing partners are accredited with WHO-GMP and ISO 9001:2015 certified exemplifies precision, innovation, and scalability, meeting the ever evolving needs of global healthcare. Strategically located in India, the facility features advanced production lines, real-time monitoring systems, and modular infrastructure to support the production of diverse and complex pharmaceutical formulations. Operating under stringent environmental controls and adhering to internationally recognized quality standards, we ensure the highest levels of purity, potency, and safety in every batch. With a focus on flexibility, our facility is equipped to accommodate customized production runs tailored to the specific requirements of each of our clients.

Research & Development (R&D)

Innovation is the cornerstone of our success, and our R&D team drives this mission forward. Comprising dedicated scientists and researchers, our team works relentlessly to develop new drug formulations that address unmet medical needs and improve patient outcomes. We focus on advanced research in areas such as formulation development, process optimization, and novel drug delivery systems, ensuring that our products meet and exceed global quality and efficacy standards.

Quality Control

Quality control is integral to every stage of our manufacturing process. From sourcing approved raw materials including Active Pharmaceutical Ingredients and Excipients to the final packaging of finished products, we implement rigorous quality assurance protocols to ensure the highest standards of safety, efficacy, and compliance. Utilizing advanced analytical tools and testing facilities, our team conducts comprehensive inspections, validations, and quality checks to maintain consistency and reliability in every batch.
